Quebec City....A visit to the oldest walled city in North America, now just 410 years young, is like a trip back in time to Old Europe. French is the language spoken here, and French cuisine, rivaling that of Paris itself, tempts you in the hundreds of charming restaurants within a short walk of our hotel, the Manoir Victoria. Citizens of Quebec celebrate the winter with a "Joie de Vivre" (*Joy of Life*), which is certain to rub off on you as you enjoy the ski areas or explore their vibrant city. You can tour the city, learn about its proud history, enjoy ice skating or tobogganing, or shop in its many fashionable stores and boutiques. Get on our bus for a trip through time and space for an experience you won't soon forget!

The Ski Areas.....Mont Sainte Anne is 2050 vertical feet of the steepest terrain you could desire on the front side. Long intermediate cruising runs are located on the back. La Saint Laurent is a great steep run and gives you fine views of the St. Lawrence River when you stop to catch your breath from the many turns needed to maintain control. A great cruising trail is Le Gros Vallon; it allows you to make some good rounded turns. If cross-country is your thing, St. Anne has 233km of groomed trails which start at the base of the mountain. **Le Massif's** views from the top are exceptional. It was named as the training site for the Canadian Alpine teams and has a world cup downhill course. The trails are wide and cover all abilities, but it is hard to concentrate on your technique due to the views. Enjoy a relaxing cruising run down La Prairie or La Petite-Riviere where you can enjoy the sightseeing and skiing at the same time.
